

Report Illegal Dumping

The Huron River that runs through the City of South Lyon is home to numerous species of animals and plants.

There are many threats that endanger the livelihood of the river. Individuals and businesses sometimes dispose of waste by tossing it into the river or on the riverbanks. An illicit discharge is the discharge of untreated sanitary wastewater or other polluting materials into a river, stream or other water from improper sewage connections; sanitary sewer overflows, improper disposal of waste products, or other discharges not composed entirely of storm water. If you are witness to suspicious activities, or know of a possible illicit discharge, please call the Oakland County Water Resources Commission at: (248) 858-0931.

Together we can keep the rivers clean in our City!
