

for CLEAN WATER in Your Community

Learn How to Influence Your Community's Clean Water Policies

Use the power of your voice to influence the future of our water by becoming a Change Maker! The Huron River Watershed Council is hosting FREE workshops to teach budding Change Makers about the Huron River and its watershed, the impacts of development on clean water, how local governments make decisions, and the many ways to connect with and influence the process.

Your voice matters! Make clean water for drinking and recreation a priority in your community. You will learn effective ways to use your voice when attending local government meetings, offering comments on community ordinance and master plan revisions or specific developments, seeking appointment to a planning commission or running for election.

Register for a FREE Change Makers Boot Camp today!
